7TH ANNUAL
'4 MILES 4 WATER
JUNE 2020

SUPPORT CLEAN WATER

We are celebrating our 10th Anniversary in 2020! After 10 years of grassroots programming, community engagement and building life-sustaining water and sanitation projects, we realize none of it has happened alone. In Uganda, 25,000+ people now have access to sustainable clean water, 10,000+ people have access to a safe toilet, 10,000+ hours have been donated by volunteers to DLDT, we’ve picked up over 7,500 pounds of trash at the beach and reached 15,000+ students in Northeast Ohio with our Wavemaker programming. In 2019 launched Waves4Change, started a complete overhaul of our Wavemaker Program and began writing a children’s book while completing our third documentary.

Make a commitment to clean water - for all. Invest in the 2.1 billion people who still lack clean water, the 4.5 billion who don’t have a safe toilet and the next generation that we have to engage on these issues.

I invite you to become a sponsor of 4 Miles 4 Water to support our local and global clean water work.

WHY SPONSOR?

4 Miles 4 Water isn’t just another event. This unique experience allows guests to run/walk a new distance, carry a water supply (optional), and learn about water. It’s a walk, a run and an All Things Water Festival with food, entertainment and activities for everyone! Since 2014, we have raised $500,000 for clean water! Your company gets exposure prior to and at the event, year-round with DLDT and discounts for your company’s team which can support any wellness program you may have! And, there is no middle-agency - your funding goes directly to our programs and projects!

WHEN YOU SUPPORT THIS EVENT, YOU HELP TO:

FUND THE LOCAL EDUCATIONAL PROGRAMS OF DLDT
MAKE A POSITIVE IMPACT ON THE GLOBAL WATER CRISIS
CREATE QUALITY VOLUNTEER OPPORTUNITIES IN OUR LOCAL COMMUNITY
EDUCATE

Our Wavemaker Program directly impacts local freshwater resources by educating students in Northeast Ohio and inspiring future stewards of our water supply.

ACT

Locally, we host 20+ events each year to empower people to ‘get active’ and become water stewards locally and globally. Globally, we design and build long-lasting water and sanitation projects with local people.

ACCESS

Globally, we provide safe water and sanitation access to schools in East Africa and training for the community to manage the project themselves for long-term success.

2019 EVENT PROCEEDS...

helped fund projects like these:

At Kampindu, displaced people had no sanitation or clean water... and now 1,812 people have these basic needs met!

Launching a complete overhaul of the WaveMaker Program, building new online tools for educators and youth!
